COMMERCIAL KITCHEN
EQUIPMENT RANGE**

Blendmatic | Blendmatic DT-M

PROFESSIONAL BAR BLENDERS | 1000W

Sujata Blendmatic is a sturdy commercial blender designed for high-volume operations across juice bars, restaurants, cafés, hotels and kiosks. Whether making drinks or preparing ingredients, Blendmatic offers a strong motor, precise blades, and tough construction, standing out as the first choice for professionals who prefer speed, quality, and reliability.

- Powered by a 1000W copper motor and stainless-steel blades, it easily handles tough ingredients like frozen fruits, greens, ice and nuts.
- The series includes 4 models: Blendmatic, Blendmatic DT, Blendmatic DT-M and Blendmatic DT-P, designed to upgrade your blending experience.
- Choose preset programs or manual mode, blending at 23,000 RPM to keep taste and texture fresh every time.
- Reliable and versatile, Blendmatic offers an unbreakable 2.25 ltr. (1.75 ltr. max. capacity) jar, overload protection, and an extra-long cord, making it perfect for busy commercial use.
- **Note: A specialised Sound Enclosure is available as an optional add-on and is compatible with all Blendmatic models. It is intended to reduce noise during operation.**

MIXER / GRINDER

POWERFUL MOTOR

DOUBLE BALL BEARING MOTOR

90 MINS. RUNNING

METAL DRIVING COUPLER

TRIPPING ON OVERLOAD

Our Commercial Mixer Grinder Magnapro CL series delivers powerful performance with a 1350W heavy-duty motor featuring double ball bearings for smooth, reliable operation. Built to handle tough tasks, the motor housing combines durable aluminium die-casting with industrial-grade plastic. A built-in tripping mechanism offers overload protection for added safety.

This series includes dome-shaped, two stainless-steel jars: a 500ml wet/dry grinder for small quantities and a large 3000ml jar with handles that clips securely. With a 90-minute continuous running capacity, the durable metal driving coupler enhances longevity, while precision-engineered cutter assemblies and high-tensile stainless-steel blades ensure outstanding performance. The Power-on LED indicator and user-friendly switch knobs simplify operation. Whether blending, grinding, or mixing, the Magnapro CL series delivers unmatched reliability and efficiency.
